NOTIFICATIONS.

Simla, the 28th May 1869.

No. 873.—The following letter to the Secretary to the Government of the North-Western Provinces, is published in the *Gazette of India* for general information:—

I am directed to acknowledge the receipt of your letter No. 1837, dated the 15th ultimo, and in reply to state that the Governor General in Council concurs in the opinion of the Hon'ble the Lieutenant-Governor that the rule contained in the order of this Department, No. 403 of the 18th January 1869, that an officer who on his return from leave "is kept out of employment through no fault of his own," is to count the period of his non-employment as service qualifying for privilege leave, is applicable, whether the period of non-employment be long or short, because it is founded on the obvious principle that an officer returning from leave is on duty from the date on which he places his services at the disposal of Government.

No. 883.—Read a letter from the Comptroller General of Accounts, No. 185, dated 6th May 1869, with three Statements, reporting the result of the tenders for 4 per cent. Promissory Notes of the Government of India to be issued under Notification of 16th March 1869.

La largeur de l'écluse d'entrée est de 26 mètres au niveau moyen de la mer.

La hauteur d'eau au-dessus du radier est de 8^m60 au niveau moyen de la mer.

Le bassin peut donc recevoir des navires ayant une longueur de pont de 115 à 120 mètres, une largeur, hors tambours, de 25 mètres, et un tirant d'eau de 8^m50.

D'après les tarifs en vigueur à la Martinique, le droit de MOUILLAGE PROVISOIRE, — pendant trois jours seulement, — sur chaque rade de la colonie, et de RELACHE FORCÉE, — quelle que soit la durée du séjour, — est fixé ainsi qu'il suit :

BESCHLUSZ des Gouverneurs verordnend die Verwaltung der Docke zu Fort-de-France:

Wir, Gouverneur von Martinique,

Nach Erwägung des art. 9 des Senatus-Consult vom 3ten Mai 1854 über die Verfassung der Colonien;

Nach Erwägung der Berathung des Oberrathes, datirt vom 15ten Novembre 1867, eine Verordnung und Tarif beschliessend über die Verwaltung der Docke, und der Administration Vollmacht überlassend, die vorgenannten Verordnung und Tarif, in einigen ihrer Verfügungen, wenn es statt finden sollte, zu ergaenzen;

Nach Erwägung des Berichtes des Brücken-und-Strassenbaumeisters, beauftragt mit der Oberaufsicht der Arbeiten der Docke, datirt vom 26ten Mai 1868;

Considérant que les dispositions du règlement voté par le conseil général ont pu être facilement appliquées aux deux navires du commerce et de la marine militaire qui sont déjà entrés au bassin ;

Considérant qu'il importe de porter à la connaissance du public les dispositions adoptées pour le service du bassin ;

Sur la proposition du Directeur de l'intérieur,

AVONS ARRETE ET ARRETONS ce qui suit :

Art. 1^{er}. Le service de l'exploitation du bassin de radoub est réglé conformément aux dispositions suivantes.

Art. 2. La colonie de la Martinique, propriétaire du bassin de radoub de Fort-de-France, n'entreprend aucun travail à faire aux navires ; elle se borne à louer le bassin asséché aux armateurs, capitaines et constructeurs qui désirent en faire usage pour la réparation et la visite des navires, à leurs risques et périls.

Art. 3. Le tarif de location du bassin est fixé ainsi qu'il suit, pour les navires à voiles et à vapeur :

1^o Entrée au bassin, par tonneau, *trois francs cinquante centimes* ;

2^o Pour chaque jour de séjour dans le bassin asséché, par tonneau, *quatre-vingt-dix centimes*.

Art. 4. Le tonnage réel sera déterminé au moyen de la jauge admise par la douane française, sans déduction, dans le cas des navires à vapeur, pour l'espace occupé par les chaudières, les soutes à charbon et les machines.

Aucun navire ne payera sur moins de 200 tonneaux, quelle que soit la jauge.

Toutefois, lorsque plusieurs navires entreront en même temps dans le bassin, ils seront considérés comme un seul navire ayant un tonnage égal à la somme de leurs tonnages.

Art. 5. Les navires pourront entrer au bassin légers ou chargés, sans augmentation de prix pour ceux qui conserveront à bord tout ou partie du chargement.

Art. 6. Il est ouvert au bureau du bassin de radoub, de sept heures à dix, le matin, et de une heure à quatre, l'après-midi, un registre sur lequel ceux qui voudront faire usage du bassin devront se faire inscrire suivant les numéros d'ordre, en indiquant le nom du navire, son tonnage, son tirant d'eau devant et derrière, la nature de la cargaison, la nation à laquelle il appartient, le nom du capitaine et de l'armateur ou du consignataire.

Considerando que las disposiciones del reglamento votado por el consejo general han podido ser aplicadas fácilmente á los dos buques, uno de comercio y otro de guerra, que entrarón ya en el dique ;

Considerando que importa traer al conocimiento del público las disposiciones adoptadas para el servicio del dique ;

En vista de lo propuesto por el Director del interior,

HEMOS DISPUESTO Y DISPONEMOS como sigue :

Art. 1^o. El servicio del dique está arreglado por las disposiciones siguientes.

Art. 2. La colonia de la Martinica, propietaria del dique de Fort-de-France, emprende trabajo ninguno que hacer en los navios ; se limita en alquilar el dique desaguado á los capitanes, armadores y constructores que desean hacer uso de él para el reparo y la visita de navios, á sus propios riesgos.

Art. 3. La tarifa de locacion está fijada así para los navios de vela y los de vapor :

1^o Intrada en el dique, por tonelada, *tres francos y cincuenta céntimos* ;

2^o Para cada día de parada en el dique desaguado, por tonelada, *noventa céntimos*.

Art. 4. El tonelaje real será determinado en virtud de las medidas admitidas en la aduana francesa, sin deducción, cuando se trate de navios de vapor, para el espacio ocupado por las calderas, carboneras y máquinas.

Ningun buque pagará ménos de 200 toneladas, cualquiera sea su porte.

Sin embargo, cuando varios buques entren al mismo tiempo en el dique, serán considerados como un solo buque, teniendo un porte igual á la suma de sus portes.

Art. 5. Los buques podrán entrar en el dique cargados ú sin carga ; no habrá aumento de precio para los que guardarán en subordo todo ú parte de su carga.

Art. 6. Se halla abierto en la oficina del dique, desde las siete á las diez de la mañana, y desde la una á las cuatro de la tarde, un registro en el cual los que quierán hacer uso del dique se harán sentar, segun los números de órden, indicando el nombre del buque, su tonelaje, calado de proa y de popa, la especie de su carga, el nombre del capitán, y del cargador ó del consignatario.

Considering that it has been possible to apply easily the dispositions of the regulation voted by the general council both to a trading vessel and a ship of war already entered in the dock;

Considering that it is necessary to publish, for general information, the dispositions adopted for the service of the dock;

Under the proposal of the Director of the interior,

WE HAVE ENACTED and ENACT as follows:

Art. 1st. The service of the dock is regulated according to the following dispositions.

Art. 2nd. The colony of Martinico, proprietor of the dock of Fort-de-France, undertakes no work to be done to ships; the administration let only the dock dried up, to the consignees, captains, and ship-builders wishing to make use of it for repairing or visiting ships, *at their own risks and perils.*

Art. 3rd. The tariff of letting of the dock is fixed as follows, for sailing vessels and steamers:

- 1° Entry into the dock, per ton, *three francs and fifty centimes*;
- 2° For each day of stay in the dock dried up, per ton, *ninety centimes.*

Art. 4th. The real burden of ships shall be determined by the means of the gauge admitted by the French custom-house, without deduction, in case of steamers, for the room occupied by the boilers, coal closets and engines.

No ship shall pay for less than 200 tons, whatever may be her burden.

In case several ships come at the same time into the dock, they shall be considered as one ship only having a burden equal to the sum of their burdens.

Art. 5th. The ships may come into the dock light or with cargo, without increase in the price for those that keep in or on board the whole or a part of their cargo.

Art. 6th. A register is opened at the office of the dock, from seven to ten, in the forenoon, and from one to four o'clock, in the afternoon, in which those who wish to make use of the dock must have their names inscribed, according to the numbers of order, with indication of the name of the ship, her burden, draught at the bow and stern, the nature of her cargo, the nation to which she belongs, the name of the captain and owner, or consignee.

Erwaegend, dass die von dem Oberrathe genehmigte Verordnung leicht an drei Schiffen ihre Anwendung gefunden, an einem Handelschiffe und einem Kriegsschiffe, welche schon beide in die Docke eingelaufen sind.

Erwaegend, dass es von grosser Wichtigkeit ist das Publicum über die für den Dienst der Docke angenommenen Verfügungen in Kenntniss zu setzen;

Auf Antrag des Directors des Innern,

Haben beschlossen und beschlieszen, wie folgt:

Art. 1. Der Dockendienst ist nach folgenden Verfügungen geordnet.

Art. 2. Die colonie Martinique, Eigentümerin der Docke zu Fort-de-France unternimmt keine Arbeit an Ausbesserung der Schiffe; Sie beschränkt sich bloss die Docke den Rhedern, Capitänen, und Schiffsbaumeistern zu vermietthen, welche sie zu benutzen wünschen, um ihre Schiffe auszubessern oder zu besichtigen, auf eigene Kosten und Gefahr.

Art. 3. Der Verpachtungstarif der Docke ist festgesetzt für Segel und Dampfschiffe, wie folgt:

- 1° Einlaufen in die Docke, per Tonne ... 3 fr. 50 cent.
- 2° Für jeden Tag des Aufenthaltes in der ausgetrokn-ten Docke, per Tonne ... 0 fr. 90 cent.

Art. 4. Der wirkliche Tonnengehalt wird vermittelt des von dem französischen Zollamte angenommenen Eichmasses bestimmt, ohne Abzug, im Falle eines Dampfschiffes, für den Raum, welchen die Dampfkessel, Kohlenkammern und Maschinen einnehmen.

Kein Schiff bezahlt weniger als für 200 Tonnen, welches auch immer sein Tonnengehalt sein mag.

Wenn jedoch mehrere Schiffe zu gleicher Zeit in die Docke einlaufen, so werden sie als ein einziges Schiff betrachtet, dessen Tonnengehalt aus der Summe der verschiedenen Tonnenzahlen besteht.

Art. 5. Die Schiffe koennen befrachtet oder unbefrachtet in die Docke einlaufen, ohne Erhöhung des Preises für diejenigen, welche ganz oder theilweise ihre Ladung am Borde behalten.

Art. 6. In dem Dockenbureau, von sieben Uhr bis zehn Morgens, und von Ein Uhr bis vier Nachmittags, ist ein Register geöff- net, wo diejenigen, welche die Docke zu benutzen wünschen, sich einschreiben lassen müssen, nach einer Ordnungsnummer, mit Anzeige des Namens des Schiffes, seines Tonnengehaltes, seiner Wassertiefe vorn und hinten, der Natur der Ladung, der Nation der es zugehoert, des Namens des Capitaens, des Reeders oder Consignataers.

Il sera délivré à l'agent du navire enregistré une carte datée et numérotée indiquant l'ordre et le tour d'entrée; plus, contre un reçu, un exemplaire du présent règlement.

Tout agent qui, après avoir fait inscrire un navire, ne sera pas en mesure de le faire entrer au jour fixé, perdra son inscription et il aura à payer, à titre d'indemnité, cinquante centimes par tonneau de jauge. Toutefois les agents de deux navires désirant échanger leur tour pourront le faire en obtenant le consentement du capitaine de port.

Art. 7. On suivra rigoureusement pour l'admission des navires l'ordre d'inscription. Cependant, les navires de guerre français, les steamers de toutes nations affectés au service postal et les navires faisant beaucoup d'eau et en danger de couler auront la priorité.

Le Gouverneur statuera sur l'application de ce droit de priorité.

Art. 8. La durée du séjour dans le bassin courra à partir du moment où le radier aura été asséché.

On comptera comme jours entiers le premier jour de l'assèchement du radier, si l'épuisement est terminé avant midi, et le jour de la sortie, quelle que soit l'heure à laquelle cette opération aura lieu.

Art. 9. Si le navire n'est pas prêt par son fait à l'heure fixée par le capitaine de port pour l'entrée, le retard sera compté au prix du séjour du navire dans le bassin.

Art. 10. Aucun navire ne pourra entrer au bassin ou en sortir avant le lever ou après le coucher du soleil, à moins d'extrême urgence. Dans ce cas, l'entrée ou la sortie donnera lieu à des frais supplémentaires, et la journée qui suivra la nuit pendant laquelle le navire sera sorti sera payée comme un jour de séjour.

Art. 11. Les dimanches et fêtes chômées ne seront pas payés s'il n'est pas travaillé dans le bassin.

Art. 12. Si la pluie ou l'orage venait, au moment de commencer le travail, empêcher les ouvriers de travailler, la journée ne sera pas comptée, à moins que l'agent du navire n'exige que le travail soit fait; dans ce cas, la journée entière sera due.

Art. 13. Si, après avoir commencé leur travail, les ouvriers sont interrompus par la pluie ou autre accident, la journée entière n'en sera pas moins comptée.

Art. 14. Lorsque l'état du navire ou la nature des réparations à faire exigera une modification dans les installations de l'intérieur du bassin, cette modification sera à la charge de l'agent du navire, qui sera tenu de replacer les chantiers dans leur position première.

Darán al agente del buque registrado un billete fechado y numerado, indicando el orden y el turno de entrada; además, y contra un recibo, un ejemplar del presente reglamento.

Todo agente que, después de haber hecho sentar un navio en el registro, no se halle en medida de hacerlo entrar al día señalado, perderá su inscripción y tendrá que pagar, á título de indemnización, cincuenta céntimos por tonelada de porte; sin embargo, los agentes de dos buques deseando cambiar su vez podrán hacerlo con el consentimiento del capitán de puerto.

Art. 7. Para la admisión de los buques, seguirán rigurosamente el orden de inscripción. No obstante, los navios de guerra franceses, los paquebotes de todas naciones afectados á un servicio de correo, y los navios haciendo mucha agua y en peligro de echar á pique, tendrán prioridad.

El Gobernador decidirá sobre la aplicación de este derecho de prioridad.

Art. 8. La duración de la parada en el dique se contará del momento en que la reja se halle desaguado.

Contarán como días enteros el primer día del desagüe de la reja, si está acabado antes de mediodía, y el día de la salida, cualquiera sea la hora en la cual se hará esta operación.

Art. 9. Si, de culpa suya, el navio no está preparado para entrar en el dique á la hora señalada para la entrada por el capitán de puerto, contarán la demora al precio de la parada del navio en el dique.

Art. 10. Ningun buque podrá entrar en el dique ni salir de él antes del nacimiento ó después de la puesta del sol, sino en caso de suma urgencia. En tal caso, la entrada ó salida dará lugar á expensas adicionales, y el día que seguirá la noche en que el buque habrá salido se pagará como un día de parada.

Art. 11. Los domingos y fiestas guardadas no se pagarán, si no han trabajado en el dique.

Art. 12. Si al momento de principiar el trabajo, la lluvia, ó una borrasca, impide á los obreros de trabajar, el día no se contará, si no es que el agente del buque exige que el trabajo sea hecho; en este caso, será debido el día entero.

Art. 13. Después de haber principiado el trabajo, si la lluvia, ú otro accidente, viene á interrumpir á los obreros, se contará, no obstante, el día entero.

Art. 14. Cuando el estado del buque, ó la naturaleza de los reparos que habrá que hacer, pedirá una modificación en las instalaciones del interior del dique, esta modificación se hará á la costa del agente del buque, quien estará obligado de volver á colocar los astilleros en su primera posición.

A ticket, dated and numbered, shall be delivered to the agent of the ship registered, indicating the order and turn of admission, also a copy of the present regulation, for which a receipt must be given.

Every agent who, after the inscription of a ship, is unable to let her come into the dock at the prescribed day, shall lose his inscription; he shall pay, as indemnification, fifty centimes per ton of burden. Notwithstanding, the agents of two ships wishing to exchange their turn of entry, can do so, after obtaining the consent of the harbour-master.

Art. 7th. The order of inscription shall be rigorously followed. But the French ships of war, the mail steamers of all nations, and vessels leaking considerably, and in danger of sinking, shall have the priority.

The Governor shall decide on the application of this right of priority.

Art. 8th. The duration of the stay in the dock shall begin the moment the apron is dried up.

They shall count as complete days the first day of the drying up of the apron, if this is finished before noon, and the day of going out, whatever may be the hour this operation takes place.

Art. 9th. If the ship is not ready, by her own fault, at the hour fixed by the harbour-master for the entry, the delay shall be counted at the price of the stay of the ship in the dock.

Art. 10th. No ship can come into the dock or go out before sunrise or after sunset, unless in case of extreme urgency. In such a case, the entry or going out shall cause supplementary charges, and the day following the night the vessel is gone out, shall be paid as one day of stay.

Art. 11th. Sundays and holidays shall not be paid for if work is not accomplished in the dock.

Art. 12th. If rain or storm, at the moment of beginning the work, prevent the artificers from working, the day shall not be counted, unless the agent of the ship require the execution of the work; in this case, the complete day shall be due.

Art. 13th. If after the beginning of the work the artificers are interrupted by the rain or any other accident, the day shall be counted as a complete one.

MILITARY.

No. 119.

INDIA OFFICE,

London, 6th May 1869.

To His Excellency the Right Hon'ble the Governor General of India in Council.

MY LORD,—Your despatch No. 33 of 26th January 1869 conveys your recommendation that, in future, all Officers who may obtain leave on sick certificate, in extension of a furlough, shall receive pay (proper) for the third year of absence, whether they be under the provisions of the Furlough Rules of 1854, or those of 1868.

2. I agree with your Government that such a course would be entirely in accordance with the spirit of the Rules of 1868, and it will be followed in the cases of Officers who may choose those Rules; but I am of opinion that it would be inexpedient at this time to make any alteration, as respects those Officers who may remain under the Rules of 1854, in a practice which is in accordance with those Rules, and has been observed in this country since their publication.

I have, &c.,

ARGYLL.

No. 629 of 1869.—The services of Cornet C. W. B. Bell, of the 5th Lancers, a candidate for the Bengal Staff Corps, are placed, as a temporary arrangement, at the disposal of the Government of Madras, for employment with a Native Regiment in British Burmah to qualify for civil employment.

With reference to the period of three years mentioned in Rules VIII., XIII., XIV., and XXIV. of the Military Leave Rules, His Excellency in Council is pleased to resolve that, as a Military Officer in Civil employ is debarred from taking general leave under Chapter II. of those Rules, the said period shall be calculated from the date of such Officer's last return from furlough exceeding three months. ation, such persons will be ferretted out and severely punished." We cannot sufficiently admire the mandarins for the liberality of their sentiments on religious toleration.

—Our Paper in alluding to money lending observes that "a Bank does not act wisely in lending its capital for immediate consumption, taking as security the Life Policy of the borrower. In this way its capital becomes locked up and the security held depends greatly for its value upon the credit and standing of the Insurance office itself." Many of those that cannot raise the wind on their own credit have recourse to the device of insuring themselves.

—According to the *Mofussilite* where there is one bad woman, there are ten bad men; and that marriage, instead of being a lottery, with a few prizes and many blanks, is exactly the reverse, so far as the relative proportion of good and evil propensities of the two sexes are concerned. Our contemporary therefore, earnestly advises all young men of steady habits, and with even moderate means, to marry. The chances are just ten to one that, with a little caution and prudence, the selection would in almost every instance turn out a prize.—Yes. A prize indeed provided one knows how to use it!

—The *Madras Standard* is "glad to find that the subject of the treatment of the insane is now being taken up by the Government in a spirit suited to the advanced ideas of the age. For many centuries, a mad man was regarded by the world at large, and by the faculty in particular, as a dangerous animal and worse than a wild beast, inasmuch as he possessed human cunning to back up a most malignant disposition, and that in his treatment, the object should be, short of actually murdering him, to subject the unfortunate maniac to the most cruel torments, and the most unnecessary indignities. Dark cells, chains, strait-waist-coats and various instruments of torture, were the usual paraphernalia of a lunatic asylum not very long ago." We have a lunatic asylum where the insane, we hope, receives better treatment for aught we know.

—The *Mofussil Guardian* observes that "honesty is, perhaps, a virtue on which we cannot place too great a stress in considering the qualifications of a good policeman. We have always been against an indiscriminate employment of rogues, sharpers and dolts in the Police. But we are sorry to find that the heads of the Department are not sentient enough to detect the number of rogues and sharpers that burden the service, bring it into disrepute and prove such pests to the public. A Police Constable very cleverly managed to give a helping hand to an old offender—who was at this time charged with House-breaking and was secured in a Police station,—in effecting his escape. This the Constable appears to have done by throwing a crowbar through the window of the cell in which the prisoner was confined. While the other constables were otherwise engaged the prisoner with the use of the crowbar made a passage through the wall and made himself scarce." The complaint against the policeman appears to be the same every where. Generally speaking he is a *zabardust* and has a peculiar knack of conducting himself according to his own peculiar notions of right and wrong.

—The *Neelgherry Excelsior* observes that "The *Indian Mirror*, a highly respectable journal conducted by an educated Native gentleman, has gone into a fit of national *delirium tremens* on the announcement that "four more of our young men have passed the Civil Service Examination." The remark is made that "in the talents displayed almost in every case where high functions have been entrusted to our eminent countrymen, the high capacities of our race for all kinds of administrative or executive work have been illustrated." We say stop a bit, don't go so fast. You do not know as yet these "four young men" will be fit for "executive work." That our countrymen are fit for it, the services afford striking proofs.

—The *Delhi Gazette* states that any native will be safe if he entrusted his case to a respectable firm in London, who will, if required, after seeing the record, send him an estimate of the probable cost of the appeal, which the appellant can then proceed with or not as he pleases. But by giving their case and their money to unrecognised

agents in India they are very likely to be fleeced. For it is impossible for these men to make any estimate of charges. Hundreds, our contemporary believes, have been fleeced in this way, losing both their money and their cases, and he thinks he is doing a service to the community generally by publishing this warning.—Those fond of litigation might note this with advantage.

—The *Delhi Gazette* states that an excellent plan of utilising the refuse water falling from vessels dipped into wells came to the notice of Mr. Morris, while he was on a tour in the Blundara district; and he has done well to press it on the attention of all other district officers in the Central Provinces. Near every well almost in the district named, there is planted a grove of young trees on ground selected for its natural slope, so as to admit of the refuse water flowing down in that direction and to prevent its returning into the well to pollute it, or to remain stagnant near the mouth of the well.—Would that the device were generally adopted.

—THE total population, exclusive of aboriginal natives and the military and their families, of New Zealand, was according to the last census taken in December 1867, 218,668, of whom 131,923 were males, and 86,739 females. This population was distributed through the several provinces as follows:—Auckland, 48,321; Taranaki, 4,350; Wellington, 21,950; Hawke's Bay, 5,283; Nelson, 23,814; Marlborough, 4,371; Canterbury (including the county of Westland), 53,866; Otago, 48,577; and Southland, 7,943; and adding 181, the population of the Chatham Islands, makes the sum total above given.

—THE *Indian Public Opinion* on street preaching:—"The Missionaries are oftentimes found, when engaged in preaching in streets, if they happen to be surrounded by Hindoos, as sometimes happens, they raise their voice against Hinduism, deny its tenets and doctrines, and inveigh against men long since dead whom the Hindoos regard as good and pious men and avatars: and they taunt and ridicule and scoff at the system which is held sacred by the Hindoos, as if it were really ridiculous and childish and productive of looseness and immorality and mischief. They would say the same thing if Mahomedans should happen to form the audience, and perhaps more, calling their best men impostors, and their religion, a religion of pleasure." The object is thus defeated by the means employed to gain the end.

—THE *Pall Mall Gazette* on high spirit and gentleman-like behaviour:—"Two young Englishmen have just favoured the inhabitants of Stuttgart with another example of that high spirit and gentleman-like behaviour which have made English tourists so universally respected on the Continent; and we are happy to be able to add that their exploits have met with due appreciation. On the Schloss Platz stands a statue of the late King, flanked by two weeping female figures, and great was the consternation of the loyal towns-people on discovering, one morning that some daring miscreants, regardless of the "divinity that doth hedge a king," had painted the trio all colours of the rainbow and crowned them with domestic vases unmentionable to ears polite. A reward of 1,200 florins, offered for the detection of the offenders at once led to their arrest." The culprits were confined in the common gaol and put on prison diet—a dear price to pay for a thoughtless joke.

—According to the *Indian Public Opinion*:—"Of all the concerns of human life, religion is the highest concern. It chastens a man's character, softens his temper, purifies his morals. By it he is enabled to lift his thoughts from this nether world to his Creator, and though a small, puny being, in comparison to this vast universe and the countless myriads of beings that inhabit and abound in it, can hold communion and intercourse with his Maker. Without it a man wallows in the mire of worldliness, looks more to his own interest and pleasure, and loves to speak of himself and his doings." The theory is admirable. It is the practice that conduces to the good of the individual and of mankind.

—THE *Saturday Review* observes that the Royal Suburb has had the luck to call the attention of the public to the nuisance of bagging. Whether Kensington is infested beyond other districts, or whether the victims of the annoyance are more sensitive there than elsewhere, is a question which the student of metropolitan manners and habits can best solve for himself. The Kensington

people say that begging has increased there vastly within the last two or three years; the Poor house returns show that the recipients of relief have increased and are increasing.—Pauperism then is on the increase everywhere.

—Drunkenness, we are sorry to note, is increasing at a tremendous rate in Russia. It is stated that the consumption of alcoholic drinks in the empire has increased since 1863 by 101 per cent. The number of persons who died from drunkenness in Russia last year was 2,748, being at the rate of seven a day. In a single Government—that of Kazan—the deaths from this cause have risen from 17 in 1854 to 117 in 1864. At Moscow, according to statistics furnished by the Director of Police, the number of persons arrested for drunkenness including women was 7,224 in 1812, and 21,794 in 1863.—The increase during a space of two decades is somewhat amazing, nearly 300 per cent.

—The duty charged upon railway-passenger traffic produced in Great Britain £339,569 in the year ending March 31, 1859; £359,112 in the year ending March 31, 1860; £366,281 in the year ending March 31, 1861; £372,178 in the year ending March 31, 1862; £383,037 in the year ending March 31, 1863; £403,526 in the year ending March 31, 1864; £439,332 in the year ending March 31, 1865; £463,024 in the year ending March 31, 1866; £471,632 in the year ending March 31, 1867, and £496,142 in the year ending March 31, 1868.

—An English Journal observes that, there is not an accomplishment in the mind of a female more enchanting, nor one which adds more dignity and grace to her person, than constancy. Whatever share of beauty she may be possessed of, whether she may have the tinge of Hebe on her cheeks, vying in colour with the damask rose, and breathe as fragrant—and the graceful and elegant gait of an Ariel—still, unless she is endowed with this characteristic of a virtuous and ingenuous mind, all her personal charms will fade away, through neglect, like decaying fruit in autumn. The whole list of female virtues are in their kind essential to the felicity of man; but there is so much beauty and grandeur of sentiment displayed in the exercise of constancy, that it has been justly esteemed by the dramatic poets as the chief excellence of their heroines.—Too true.

—THEY have a Deaf and Dumb Debating Club in London. It consists of 28 members, who are all adepts in dactylology. The debates are, as a matter of course, carried on in complete silence, but with the utmost ease and energy. Such subjects as "The Irish Church," "The Best Way to enjoy life," "Was the late Abyssinian War justifiable?" &c., have been lately discussed. The minutes of the proceedings are kept with the most rigid exactness. The members lately met at a commemorative dinner, and although songs were not possible, toasts were given and drunk, and the proceedings passed off with great joviality.

—THE Madras Government is taking the photograph of criminals now in the penitentiary, with a view to provide the Police of that city greater facilities for the apprehension of escaped criminals, and also to render easier the identification of old offenders.—Why not adopt the same course here?

—A VERY learned and compassionate judge in a Western State, on passing sentence on one Jones, who had been convicted of murder, concluded his remarks as follows:—"The fact is, Jones, the Court did not at first intend to order you to be executed before next spring, but the weather is so very cold; our gaol is unfortunately in a bad condition; much of the glass in the windows is broken; the chimneys are in such a dilapidated state that no fire can be made to render your apartment comfortable; besides, owing to a great number of prisoners not more than one blanket can be allowed to each; and to sleep sound and comfortable is, therefore, out of the question. In consideration of these circumstances, and wishing to lessen your sufferings as much as possible, the Court, in the exercise of humanity and compassion, do hereby order you to be executed to-morrow morning."

—A high compliment on the condition of the jails of the State alluded to!

—HEMLOCK no POISON.—Scientific discovery has destroyed another of our most popular theories. Hemlock, to which Socrates and Phocion were said to owe their deaths, is pronounced by Mr. Harley and other eminent

toxicologists to be no poison at all. Sixty grains of tincture of hemlock were administered to a young woman without any apparent effects, and Mr. Harley, after a dose of twenty-four grains of the pure juice of the leaves of the hemlock, only experienced a slight muscular numbness, which passed off after an hour.—Science will achieve further wonders yet.

—A RATHER amusing hint for the Girls of the Period which we hope they will take to heart—Laura—"Why, Harriet, what a queer way of doing your hair—just like a snail!" Harriet—"Well, my love, I don't think any one can call that a 'fast' head dress."

—THE *Indian Examiner* in writing on the Civil Service Examination remarks that "while the routine of our public and higher class private schools compels the majority of English students to spend some ten or twelve years of their student-life in studying the dead languages after a slow and ancient fashion to the almost total exclusion of their native tongue, the Civil Service Commissioners give as much credit for a knowledge of English as for Latin and Greek together."—Does our contemporary need to be told that the Sanskrit and Arabic fare no better?

—THE *Dacca News* has read with surprise not unmixed with regret in the *Englishman* of the 2nd instant, an article reflecting on his silence regarding a criminal case, the preliminary investigation of which is just closed in the Magistrate's Court. Our contemporary supposes he has been incautiously led into the publication of the case in a narrative form containing, as he so doubt believes, facts as they appeared in evidence before the Magistrate, Mr. Graham. He assures him that the version published is not borne out by the testimony of the witnesses examined previous to the commitment of the case to the Sessions.—The wisest policy is to refrain commenting on a case, so long as it is sub-judice.

—THE *Indian Examiner* states that the "Hare School boys and their friends seem to have been too many for the Police, who know no medium between apathy and indiscreet zeal, and seem to be ignorant of the fact that Inspectors and Constables may be guilty of house trespass as well as common people." Indeed! But is that any reason that they are not to be prosecuted as common people. We hope our contemporary does not wish that they should be exempted, because they trespassed in native houses and thrashed native lads.

For the comparative recommendations of smoking and snuffing, as discovered by a colonial poet, vide the following:—

"Behold the Smoker!—see with what a grace
He lights his pipe, and every care defies,
A soothing comfort tells all o'er his face
And sparkling pleasure beameth from his eyes;
Clouds after clouds, the puffs each other chase
And rise in fragrant glory to the skies;—
A fragrant canopy is round him spread,
And wreaths of incense circle round his head.
But mark the Snuffer, with his box in hand,
"The Trumpet sounds, the note of preparation;"
Then comes the rousing pinch, poignant and grand,
No time or place can mar its expectation—
"For Auld Lang Syne" and "hand to hand,"
"Shout to Shout," every man his station.
Some lasting friendships have begun by snuffing
And even love lies more in pinching than in puffing.

—THE *Indo-European Correspondence* states that he was never a great admirer of tea-total, or to use a more dignified phrase, temperance principles, but one is almost goaded into advocacy of temperance even in its most fanatical phase, by the ubiquitous bottle. The great St. Augustine tells us how, before his conversion, when he was much given to the study and practice of rhetoric, and was one day in all the agony of a speech to be ere long delivered, and from which he hoped to gain no small renown, he met a poor devil of a porter who had taken a drop too much. Whereat the ambitious rhetorician philosophized on his own fever of anxiety, his previous days upon days of careful preparation to gain a little fleeting happiness which this toper had secured at a tavern for a few coppers.—But this fitting happiness though purchased at a few coppers, is dearly paid for by the sacrifice of health, of office, nay of a fortune, of morality, of virtue and of religion.

All official covers transmitted through the General Post will be subject to the new Rules, the exemption of the official correspondence of local officers within the limits of their respective

districts being withdrawn, so far as concerns transmission through the General Post, from the date on which the new Rules come into operation :—

* For limits of weight and size, see Rule XXV.

At the Presidency towns and other places where there is a separately-organized local Post for the receipt and delivery of letters at frequent intervals during the day, it may often be convenient for privileged Offices to post local letters in a neighbouring pillar-box, instead of sending them to the Post Office in an official bag, and in such cases this Rule ought to be availed of.

affairs of Government, may be endorsed according to the specimen form given on the margin, under the full signature of the sender. The address must include the full official designation of the public Office to which the cover is sent. Such covers will be charged on delivery

at the rate to which they would have been liable if prepaid by stamps. This rule is intended to provide for cases of zemindars reporting the occurrence of crime to a Police Officer; of employers of laborers sending returns required by the Protector; of aided schools forwarding returns required by a Government Inspector, and of any similar reports or returns required by Government for its own purposes from private individuals, societies, associations, or institutions.

D.—SUPPLEMENTARY POSTAGE ACCOUNT BOOKS FOR PRIVILEGED OFFICERS WHEN ON TOUR, AND FOR CERTAIN OTHER CASES.

XIII. Privileged officers proceeding on tour will be supplied by the Post Office at their head quarters with supplementary postage account books, on which will be printed instructions for their use.

XIV. If a privileged officer goes on tour without a supplementary postage account book, or, if having one, he does not present it at the Post Office, he cannot enjoy the privilege of sending and receiving covers without actual payment of postage, but he may in such case post covers under the Rules prescribed for officers not privileged.

XV. For a Governor or Lieutenant-Governor proceeding on tour, the same Rules apply, except when a Camp Post Office is organized. In that case the Camp Post Office will keep the postage account, forwarding monthly returns to the head quarter Post Office.

XVI. A district officer (see definition of the term in the list, entry No. 23) may obtain from the Post Office at his head quarters supplementary postage account books for the use of assistants or deputies stationed in the interior of the district and in charge of sub-divisions, the Post Master who supplies such books being informed of the designation and locality of the subordinate Office for which each is required. These books, when supplied to sub-divisional officers, will be placed by them in the Post Office where they desire to enjoy the privilege, and will entitle them to send and receive official covers just as if they were privileged officers. Instructions for the use of such books will be printed thereon.

XVII. Similarly, District Superintendents of Police may obtain supplementary postage account books for the use of Assistant Superintendents stationed in the interior of the district.

E.—MISCELLANEOUS.

XVIII. Officers in charge of Telegraph Offices, when posting telegraph messages for onward transmission by Post, are entitled to get receipts for them. Such receipts must be presented ready written in the form ordinarily used by the Telegraph Offices when delivering telegraph messages to the addressees. The Post Master will compare the receipt so presented with the address of the cover accompanying it, and if correct will affix the Post Office Stamp in acknowledgment of receipt. All covers for which receipts are claimed under this Rule must be superscribed with the word "Telegram." Telegraph messages so sent are liable to the

ordinary rates of postage, which must be prepaid in full by means of postage stamps.* If telegraph messages are sent registered, the usual registration fee must likewise be prepaid by postage stamps.*

XIX. Complaints against the Post Office, certified as such, under the full signature and address of the sender, and addressed to any officer of the Postal Department, are not chargeable with any postage.

XX. Official communications addressed to Government Offices "on Her Majesty's Service" under Rules (IV.), (VIII.), or (IX.), or "Service Bearing" under Rules (XI.) or (XII.) are not liable to additional postage on account of re-direction.

XXI. Government officers are bound to receive and pay any postage which may be due on covers addressed to them under the superscription, "on Her Majesty's Service" or "Service Bearing." If the charge of postage results from any irregularity or omission on the part of the sender, his fault should be represented to the proper authority.

XXII. Postage stamps required for official correspondence should be purchased at the Government Treasury, or other local stamp depôt. The stamps issued to official applicants for official purposes, will be marked with the word "Service," and when used in payment of postage must be supported by the superscription on the cover "On Her Majesty's Service only," under

the full signature and official designation of the Government officer who sends the cover. The superscription and signature should be entered in the form marginally given. Service stamps affixed to a cover without the above-mentioned superscription will not be recognized by the Post Office in payment of postage. Treasury officers are

enjoined not to issue service stamps to any but Government officers.

XXIII. Covers posted by a privileged Office under Rule IV., but not enclosed in the official bag, will be treated as if posted by an unprivileged Office, i. e., charged in the account of the receiving Office if it be privileged, and charged with postage at prepaid rates if addressed otherwise than to a privileged Office. Covers sent by an unprivileged Office under Rule (IX.), but without stamps, will be charged with postage on delivery at prepaid rates, and if the stamps affixed be insufficient, the deficiency will be charged. Any other irregularity or incompleteness of the address or superscription will render the cover liable to be treated as an ordinary unpaid cover.

XXIV. Government officers when on leave, and those who have retired from the service of Government, can correspond only as private individuals.

XXV. The limits of weight and size, in respect of official letters or packets, are the same as those* prescribed for ordinary packets. A cover exceeding those limits can only be forwarded as a banghy parcel, and must either be prepaid by postage stamps† by the sender or paid

* Not to exceed 200 tolas in weight, or one and half foot in length, or one foot in breadth or depth.

† See Rule XXII.

for in cash by the addressee. Receipts for such banghy parcels when presented ready written will be returned stamped with the Post Office stamp. Service banghy parcels are exempted from the Rule requiring them to be packed in wax-cloth or tin, and sealed at intervals along the lines of sewing, but they must be securely packed.

XXVI. In order to afford to public Offices the means of checking the postage accounts kept against them in the Post Office, reasonable opportunity will be given, under the orders of the Post Master General, for the inspection of the Post Office account by an officer deputed for the purpose from any public Office.

XXVII. The Director General of the Post Office is authorized to make annual arrangements with the Money Order Department for the conveyance of its correspondence without actual payment at a contract rate. Similar arrangements may be made in other cases in which they may be practicable and convenient.

F.—OFFICIAL CORRESPONDENCE WITH PLACES ABROAD, OR BETWEEN INDIAN POST OFFICES WHEN CONVEYED BY BRITISH OR FRENCH MAIL PACKETS.

XXVIII. The Rules contained in the preceding sections relate exclusively to official inland correspondence, i. e., correspondence conveyed between one Indian Post Office and another by Her Majesty's Indian Post.

XXIX. Official correspondence with places abroad or between Indian Post Offices when conveyed by British or French mail packets (e. g., between Calcutta and Madras, or between Bombay and Aden), is governed by the same Rules as ordinary private correspondence, and must either be prepaid by stamps* or (where prepayment is optional) be forwarded as unpaid, subject to the levy of postage on delivery.

* See Rule XXII.

XXX. The only exception to the preceding Rule has reference to official correspondence sent by British packet to or from the public functionaries or departments in London which have special accounts for overland postage with the London Post Office. Official covers intended for such Offices need not be prepaid if superscribed as on Her Majesty's Service under the full signature and official designation of the sender. No. 1381.—Under the provisions of Sections 15 and 20 of "The Indian Post Office Act, 1866," the Governor General in Council is pleased to declare that the rates of postage chargeable on Banghy Parcels under Sections 14 and 18 of the said Act shall be superseded, in respect of all parcels posted on or after the 1st September 1869, by the following scale, viz. :—

2. The postage chargeable on Banghy Parcels conveyed by Her Majesty's Indian Post between any two Indian Post Offices, whether by sea or land, or partly by sea and partly by land, shall be chargeable by weight and distance according to the following scale :—

	NOT EXCEEDING IN WEIGHT		For every additional seer (80 tolas) or fraction thereof up to the limits mentioned.	REMARKS.
	Half a seer or 40 tolas.	One seer or 80 tolas.		
	Rs. A.	Rs. A.	Rs. A.	
Single distance rate	0 8	1 0	1 0	Parcels exceeding 8 seers (640 tolas) cannot be received for transmission along any line of road on which the Banghy Parcels are carried by foot-runners, and no parcel exceeding 25 seers (2,000 tolas) can be received for despatch under any circumstances whatever.
Double distance rate	1 0	2 0	2 0	

3. The distance covered by the single rate shall be 900 miles, the double rate being charged for all distances exceeding 900 miles. The distance shall be calculated geographically, allowance being made for the average deviation of the lines of actual transit from the direct lines, and the distance from or to any subordinate Post Office shall be reckoned to be the same as the distance from or to the Disbursing Post Office to which it is subordinate.

4. To enable the public to ascertain in any case whether the chargeable distance is single or double, the Director General of the Post Office shall cause figures to be entered in the list of Post Offices (to be included in the next edition of the Indian Postal Guide, and in all future editions) opposite each Post Office, and shall describe in the Postal Guide the mode in which the chargeable distance between any two Post Offices may be deduced from those figures.

No. 1382.—Under the provisions of Section 20 of "The Indian Post Office Act, 1866," the Governor General in Council is pleased to declare that the postage chargeable under Section 13 of the said Act on inland packets containing patterns of merchandize, or articles other than books (as hereinafter defined), shall be doubled in respect of all such packets posted on or after the 1st September 1869.

2. Under this order, the rates of charge will be according to the following scale, viz. :—

	Not exceeding 10 tolas in weight.	Exceeding 10 tolas in weight, but not exceeding 20 tolas.	For every additional 10 tolas, or fraction thereof.
For a Book Packet	One anna	Two annas	One anna.
For a Pattern Packet	Two annas	Four annas	Two annas.

3. The Governor General in Council is further pleased to prescribe the following revised rules and conditions for the transmission of packets, with effect from the date mentioned above, viz., 1st September 1869 :—

BOOK PACKETS.

Insufficiently paid Book Packets

Any book packet which may be posted insufficiently prepaid, but bearing, nevertheless, a stamp or stamps of the value of a single rate (one anna), shall be forwarded to its destination charged with double the deficient postage.

Unpaid Book Packets.

Any book packet which may be posted without re-payment to the extent above-noted or wholly unpaid, shall be treated as a banghy parcel, and forwarded to its destination charged with banghy postage.

Book Packets how to be packed.

A book packet must be sent either without a cover, or in a cover open at the ends or sides, so as to admit of the enclosures being removed for examination. For the greater security of the contents, the packet may be fastened by string; but in such case the Postmaster is authorized to cut the string, although, if he do so, he must again tie up the packet. If this rule be infringed, the packet shall be charged as a letter or banghy parcel, as the case may be.

Contents of Book Packets.

A book packet may contain any number of separate books or other publications (including newspapers and printed or lithographed letters), photographs (when not on glass or in cases containing glass), prints or maps, and any quantity of paper, parchment or vellum; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed or plain, or any mixture of these. No other material is allowed than *paper parchment or vellum*, except in the case of printed books or publications, artistic prints and maps, architectural drawings, plans and tracings which may be printed or written upon *canvas or cloth*. Further, all legitimate binding, mounting or covering of a book, &c., or of a portion thereof is allowed, whether such binding, &c., be loose or attached, as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto: but the binding, &c., must not be sent as a separate packet, nor can patterns or books of patterns (unless these consist merely of *paper*) be permitted.

No book packet may contain anything which is sealed or otherwise closed against inspection, nor must there be any letter nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. As respects the name and address of the sender, not only is the writing permitted, but it is recommended in order that, if the cover come off or for any other reason the packet cannot be forwarded, it may be returned to the sender.

Any book packet which in contravention of this rule may have any letter or any communication of the nature of a letter written in it, or upon its cover, shall be charged with letter postage: and if any book packet be found to contain any letter not wholly printed, whether closed or open, or any enclosure, sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure shall be taken out and charged with the full postage as an unpaid letter together with an additional rate.

Limit of weight and size of Book Packets.

No book packet may exceed 200 tolas in weight, or one foot and a half in length, or one foot in width or depth: and if any such packet be posted, it shall be treated as a banghy parcel and charged accordingly.

Book Packets not exceeding 10 tolas to be specially superscribed.

Book packets not exceeding 10 tolas in weight shall be conveyed by letter post, and charged with letter postage, unless specially directed to be sent by "book post."

Certificate required where Book Packets conveyed by Letter Mail.

Where there is no separate banghy or packet post established on any line of road, book packets shall be transmitted by the letter post at book post rates, if it be certified in writing on the packet under the full signature and address of the sender that it does not contain any letter or other written communication on which a higher rate of postage is chargeable.

PATTERN PACKETS.

Insufficiently paid Pattern Packets.

Any pattern packet which may be posted insufficiently prepaid, but bearing, nevertheless, a stamp or stamps of the value of a single rate (two annas), shall be forwarded to its destination charged with double the deficient postage.

Unpaid Pattern Packets.

Any pattern packet which may be posted without pre-payment to the extent above-noted, or wholly unpaid, shall be treated as a banghy parcel and forwarded to its destination charged with banghy postage.

Pattern Packets how to be Packed.

A pattern packet must be sent either without a cover, or in a cover open at the ends or sides so as to admit of the enclosures being removed for examination. For the greater security of the contents, the packet may be fastened by string, but in such case the Postmaster is authorized to cut the string, although, if he do so, he must again tie up the packet.

As an exception to the above rule, seeds and other articles likely to be injured by damp, &c., may be enclosed in boxes or in bags fastened in such a manner that they can be readily opened, or in bags entirely closed, provided that they are transparent so that the officers of the department may be able to satisfy themselves as to the nature of the contents.

Any pattern packet not packed in accordance with this rule shall be charged as a letter or a banghy parcel, as the case may be.

Contents of Pattern Packets.

A pattern packet may contain any article or number of articles, except manuscript letters, or manuscript communications of the nature of a letter, or explosive or dangerous material or substance (the transmission of which by post in any form is prohibited), or coin, bullion, precious stones or jewels (which Postmasters are prohibited from knowingly receiving for despatch by post in any form). The prohibition against the transmission of dangerous articles does not interfere with the transmission of scissors, knives, forks, steel-pens, nails, keys, watch-machinery, metal-tubing, pieces of metal or ore, &c.: provided that they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the officers of the Post Office, while at the same time they may be easily examined. If any packet containing such articles as these be posted, which is found not to be sufficiently guarded, it shall be stopped, and a notice of its detention shall be sent to the person to whom it is addressed, or to the sender who may then obtain it by personal application, but the packet shall be charged with a fine equal in amount to the postage to which it was liable.

Pattern Packets not exceeding 10 tolas to be specially superscribed.

Pattern packets not exceeding 10 tolas in weight shall be conveyed by letter post and charged with letter postage, unless specially directed to be sent by "pattern post."

Certificate required where Pattern Packets conveyed by Letter Mail.

Where there is no separate banghy or packet post established on any line of road, pattern packets shall be transmitted by the letter post at pattern post rates, if it be certified in writing on the packet, under the full signature and address of the sender, that it does not contain any letter or other written communication on which a higher rate of postage is chargeable.

No. 1514.—Read again—

Financial Notification No. 2823, dated 16th October 1866, regarding the admission of qualified candidates to the Assay Department of the Indian Mints.

Read the following Financial Despatch:—

From the Secretary of State for India, to the Government of India, Financial Department,—No. 151, dated India Office, London, the 22nd April 1869.

I forward herewith, for your consideration, copy of a letter dated the 7th instant, from Surgeon-Major Shekleton, Assay Master of the Calcutta Mint, in which he represents the injurious effect which he conceives would result from the employment in the Assay Department in India of others than Officers of the Civil or Military Services; and he suggests that the Resolution of your Government, dated the 16th October 1866, No. 2823, which declared "that any candidate who can produce the necessary certificate from the Secretary of State of his qualification as an Assayer, and who may be otherwise duly qualified, will be eligible for employment in the Assay Department," should, in some respect, be modified.

2. The Resolution of your Government was issued consequent on the receipt of the Financial Despatch dated the 16th August 1866, No. 185, in paragraph 6 of which it was stated that, should it become known that appointments in the Assay Department were no longer sought after by medical officers, it was anticipated "that an increased number of candidates will present themselves from the Military or Uncovenanted Services."

3. It was not, however, intended that these appointments should be thrown open to the public generally, as might possibly be inferred from the wording of your Resolution, and I request, therefore, that you will issue a notification on the subject in accordance with the views now expressed.

From Surgeon-Major J. A. SHEKLETON, Assay Master, Her Majesty's Calcutta Mint, to the Secretary, Financial Department, India Office,—No. 14, dated London, the 7th April 1869.

I take the liberty of addressing you, with reference to a Resolution of the Government of India in the Financial Department, No. 2823, dated the 16th of October 1866, an extract from which accompanies this letter, on the subject of the future admission of qualified persons to the Assay Department of Indian Mints.

I feel it a duty from my long connexion with this branch of the service to represent injurious effect, as it seems to me, of this Resolution on the efficiency of an important department; and I beg you will do me the favor of bringing my views to the notice of the Right Hon'ble the Secretary of State for India.

For many years, prior to the date of this Resolution, Commissioned Officers of the Indian services were, with an exception or two, the only ones who qualified for the department, and none others have during that time been posted to it. Now, however, it would appear from the wording of the Resolution that any one in possession of a certificate of proficiency in assaying the precious metals, readily obtained after a very few months of attendance in a London laboratory, is eligible for employment in the department.

I am aware from applications that have reached me from persons otherwise wholly unfit for service under Government, that this is generally understood to constitute the sole qualification requisite.

Nominations to vacancies usually take effect by seniority of qualification; and it is quite a possible contingency that a young man without official training, Mint experience, or any social status whatever, may, under this new order, be placed in charge of one of the most responsible offices in the State, that of Assay Master.

What this responsibility amounts to, I will endeavour to explain in contrast with the duties of a mere qualified or "Commercial" Assayer.

As Assay Master of the Calcutta Mint, for instance, I am alone responsible to Government for the standard purity of all coinages, both of gold and silver. I have control over the quantity of alloy, examine the standard meltings, the resulting coins, &c., have charge of the standard weights and measures of the Presidency, am referred to by the Mint Master on any question in which the integrity of the coinage is involved, and have further the official correspondence of my department to conduct.

But the weightiest responsibility of all is that in connexion with the valuation of imported bullion, the Government on the one hand, and the importer on the other, being bound to abide by my assays, to the value in busy times of as much frequently as £60,000 daily. At the date of my leaving Calcutta in February last, I was issuing assay certificates, payable on demand at the Bank of Bengal, for £50,000 each day.

When I add that these assay operations cannot readily be checked, and that in so far the Assay Master's Office is one of special trust and responsibility, I think I have said enough to prove that Government would be wise in exercising a keener scrutiny in their nominations to this department than is possible under the provisions of the order alluded to.

Commercial Assayers, *i. e.*, such qualified persons as the Resolution apparently refers to, are only called on to fix the assay value of certain small samples of bullion submitted to them. With this their duty ends, and neither by acquirement or position are they in any way qualified for such an appointment as that of Assay Master of an Indian Mint.

Looking, therefore, to the efficiency and well-being of the department, I would respectfully urge the propriety of so altering or modifying the wording of this Resolution, that Officers of Her Majesty's Civil or Military Services should alone be deemed eligible for employment therein.

I would further add that Colonel Hyde, the present Master of the Calcutta Mint, entirely concurs in these views, and that I shall be happy to explain them personally or more fully should I be called upon to do so.

ORDERED, that the Notification of 16th October 1866 be cancelled, and that in substitution thereof, the subjoined Notification, together with the documents now read for the first time, be published in the *Gazette of India* for general information.

NOTIFICATION.—The Governor General in Council is prepared to declare that any candidate who can produce the necessary certificate from Her Majesty's Secretary of State for India, of his qualifications as an Assayer, and who may be otherwise duly qualified, will be eligible for employment in the Assay Department of the Indian Mints. It is not, however, intended that these appointments shall ordinarily be thrown open to the public generally. Except under special circumstances, when the observance of such rule would, in the opinion of the Governor General in Council, be detrimental to the public service, appointments in the Assay Department will be given to duly qualified Officers of Her Majesty's Civil or Military Services.

The appointments and salaries in the Assay Department are as follow :—

	Rs.	A.	P.
Assay Masters, Calcutta and Bombay, each Rs. 1,500, rising by increases of Rs. 100 per mensem every other year to ...	1,800	0	0
Assay Master, Madras	1,500	0	0
Deputy Assay Masters, Calcutta and Bombay, each ...	750	0	0
Deputy Assay Master, Madras	606	10	0

Officers who may now enter the department will be posted to the lowest appointment in the list, and will be held eligible for transfer or promotion to the Assay Offices of the three Presidency towns.

Despatch from Her Majesty's Secretary of State for India, No. 169, dated 29th April 1869.

RESOLUTION.—The Governor General in Council observes that Mr. S. S. Hogg, a member of the Covenanted Civil Service, and Chairman of the Justices of the Peace for the Town of Calcutta, applied in January 1869 for a furlough to which he was entitled under the rules applicable to the Civil Service.

2. By the Municipal Act, however, for the Town of Calcutta, the Justices are restrained from giving any absentee allowance to the Chairman which might cause a greater expenditure from the Municipal Fund than would have been incurred had no leave been granted.

3. On consideration of the matter, the Governor General in Council ruled "that, so far as the Government is concerned, Mr. Hogg, and all officers similarly situated, should be allowed leave of absence on precisely the terms that would apply to them if they were Government servants; that the Justices of the Town of Calcutta and other Municipal Corporations concerned in like cases should not be required to provide, on the whole, any allowances in excess of those which they pay when the officer is present at his post; but that they should be invited to grant to the officer to whom they may give leave of absence whatever sum may be saved by the employment of a substitute on lower allowances than those received by the regular incumbent.

"When this is done, Government should supplement the absentee allowance so granted so as to bring up the whole absentee allowance to the amount to which, by the rules of the Government service, the officer would, were he in the service of Government, be entitled."

4. This decision having been confirmed by the Secretary of State for India, the rule will be generally observed.

ORDERED, that this Resolution be published in the *Gazette of India*, and communicated to the Foreign, Home, Military, Public Works and Legislative Departments; the Governments of Bengal, Madras, Bombay, the North-Western Provinces and the Punjab; the Comptroller General of Accounts; the Accountants General in Bengal, Madras, Bombay, the North-Western Provinces, the Punjab and British Burmah, and the Deputy Accountants General in the Central Provinces, Hyderabad and Mysore.

TELEGRAPH DEPARTMENT.

NOTIFICATIONS.

*Calcutta, the 22nd December 1868.**Introduction of Stamps from
1st February 1869.*

From the 1st of February 1869, all messages received into a Telegraph Office for despatch, must be stamped to the full value for all demands.

2. Telegraph Stamps will be procurable at all Telegraph Stations in any quantities, and at Civil Treasuries in quantities of the value of not less than Rs. 5 of labels at one time, provided that the quantity sold shall not include less than one Rupee worth of any particular value of Stamps.

Stamps procurable at Telegraph Office and Civil Treasuries.

3. Telegrams can be sent from out-stations by post, but they must be enclosed in registered covers. At stations where Telegraph Stamps are not procurable, they may be paid for by Postage Stamps at the rate of 17 annas to the Rupee. In such cases, the Post Office registration receipt will take the place of the ordinary Telegraph receipt. If any telegram be received insufficiently stamped, it will be returned bearing to the sender.

4. Telegram Stamps are double headed, the object being that the upper half shall be returned on the receipt (whereby the sender receives a guarantee that his message has not been suppressed for the sake of the money), and the lower half shall be affixed to the message as voucher to Government that it has been prepaid.

The form of Stamp provides a guarantee to the sender and to the Government.

5. Proper forms on which to write telegrams are available at all Telegraph Stations gratis for messages written at the Office, or for sale at the following rates:—

						Rs.	A.	P.
Per 100	1	2	0
„ 50	0	10	0
„ 25	0	6	0
„ 12	0	3	0

These forms will also shortly be obtainable at the same rates at all Treasuries.

6. The senders of Telegrams must be careful to affix their Stamps on the spaces left blank for the purpose on the message forms,—the upper half on the receipt, the lower half on the message,—and to see that the Stamps are defaced with the Office Stamp which carries the name of the Office and date.

Stamps to be properly affixed to the forms,—upper half on the receipt, lower half on the message.

7. Telegram Stamps cut in two, before being sent into a Telegraph Office, will not be accepted.

8. For rates of charge, see Notification on revised Tariff of the 20th September 1868.

9. Skeleton Maps of India showing the Telegraph Lines and Stations are procurable at most Telegraph Offices at eight annas each.

The Ceylon charge on a message of 20 words to or from India will, in future, be one Rupee. Thus, a message of 10 words between any station in Ceylon and any station in India (except those east of Calcutta), will be two Rupees, a message of 20 words will be three Rupees, a message of 30 words will be five Rupees, and so on.

A charge of one Rupee in addition to the above will be made for a message of 20 words to or from any station east of Calcutta.

The above cancels paragraph 9 of the Telegraph Notification dated Simla, the 20th September 1868, published in the *Gazette of India* of the 20th idem.

Director General of Telegraphs in India.

PART V.

Bills introduced into the Council of the Governor General for making Laws and Regulations.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 18th June 1869, and was referred to a Select Committee with instructions to make their report thereon in a fortnight:—

No. 10 of 1869.

A Bill to exclude the ordinary Civil Courts from the cognizance of suits relating to land in Bhutan Dvairs, and to legalize certain Rules for the settlement of the said territory.

Whereas it is expedient to exclude the ordinary Civil Courts from the cognizance of suits relating to immovable property, revenue and rent in the territory ceded by the Government of Bhutan to the British Government in the year 1866 and commonly known as the Bhutan Dvairs; And whereas certain rules contained in the Schedule to this Act have been made by the Lieutenant-Governor of Bengal for the settlement of the said territory, and it is expedient that such rules should have the force of law; It is hereby enacted as follows:—

1. The jurisdiction which the ordinary Civil Courts of Judicature have hitherto had and exercised in respect of suits and other matters connected with immovable property, revenue, and rent in the said territory shall cease from the date of the passing of this Act.

2. Such jurisdiction shall be exercised by such Officers and within such local limits as the Lieutenant-Governor of Bengal shall from time to time appoint in this behalf.

3. The rules contained in the Schedule to this Act shall be deemed to have the force of law.

4. This Act may be called "The Bhutan Dvairs Act, 1869."

SCHEDULE.

Rules for the settlement of the Territory ceded by the Government of Bhutan to the Government in the year 1866, known as the Bhutan Dvdrs.

1. At a reasonable time, before any Officer appointed under Section 2 of the Dvdrs Act, 1869, shall commence his enquiries in any Revenue Survey Circuit or other convenient tract of country, a notice shall be published in such tract calling on all interested in the suits and matters mentioned in Section 1 of the said Act, to come forward and advance their claims and protect their interests before the said Officer.

2. In the investigation of such suits and matters the said Officer shall be guided by the provisions of Regulation VII of 1822, and shall exercise all the powers conferred upon a Collector making a settlement of land revenue by that Regulation and all other Regulations and Acts amending the same, in addition to the powers vested in him by these rules.

3. The said Officer shall make a record in such form as the Lieutenant-Governor may direct, of all rights, interests, and other matters which he is empowered by these rules to investigate, ascertain, and determine.

4. The said Officer shall ascertain the position as to rights and interests connected with the soil which each person *bond fide* occupied before the state of things was affected by the Bhutan war, and, subject to due regard for considerations of public policy, confirm him in that position: He shall take cognizance of, and decide, all disputes, conflicting claims, and doubtful questions which then existed. Provided that he shall not take cognizance of any right or interest which, being capable of exercise or assertion within twelve years before the date on which the Dvdrs were transferred to the British Government, had not been exercised or asserted during the period.

5. As soon as the record of rights for any tract as mentioned in Rule 3 is completed, the said Officer shall cause it to be published in the tract, and a second copy shall be open for inspection at his Office, of which fact due notice shall be given.

6. Within one month of such publication, any person dissatisfied with any entry in the record, which has not been adjudicated upon by the said Officer, may present a petition to such Officer, who shall thereupon proceed to try the question.

7. Any person aggrieved by any decision or order of the said Officer may petition to the Commissioner of the Division, or to the Lieutenant-Governor to be a Commissioner, presented within three months of the date of such decision or order, unless sufficient cause for longer delay be shown.

8. The said Officer may, within one month of the date of such decision or order, admit to review any such decision or order, provided that no appeal have been made to the appellate authority as defined in Rule 10.

9. The appellate authority, may with the sanction of the Lieutenant-Governor, admit to review any such decision or order by such appellate authority on appeal, admitted to review.

10. No appeal shall lie as of right to any appellate authority under these rules, but, notwithstanding any thing to the contrary in these rules, the Lieutenant-Governor of Bengal may, if he think fit, alter, vary, or annul any decision or order which may have been passed under these rules: Provided that an application in that behalf shall have been made before or within one month after the issue of the notification of confirmation of the record under Rule 11.

11. When the record of any circuit or other tract as mentioned in Rule 3 shall have been finally revised and amended in accordance with all orders passed by the said Officer or the Commissioner of the Division under these rules, the record shall be confirmed by an order of the Commissioner of the Division to be published in the *Calcutta Gazette*.

12. From the date of the publication of such confirmation, the said record shall not be varied or altered otherwise than by an order of the Lieutenant-Governor under Rule 10, and such record shall be conclusive evidence as to any right, interest, or other matter which may be entered on it in accordance with the provisions of these rules.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill, which has been framed at the desire of the Lieutenant-Governor of Bengal, is two-fold,—first, to exclude the ordinary civil courts from jurisdiction in respect of suits relating to land, rent and revenue in the Bhután Dyárs; and secondly, to legalize certain rules which provide, *inter alia*, for the disposal of such suits.

It is thought impolitic that a newly-acquired and barbarous country should be subject to the civil jurisdiction of tribunals which, however qualified to decide cases of complexity, cannot (as the High Court itself has held in *Sreekant Shaha v. Kattoo Doss*, 10 Suth. W. R. Nil Rulings 125), entertain considerations of expediency, and which are confined to the decision of naked issues of law or of fact, and bound by the strict rules of evidence.

The rules which the Bill proposes to validate have been prepared by the Bengal Government. The Officers who may be appointed to adjudicate suits and matters, of which cognizance the ordinary civil courts is barred, will under these rules exercise the powers conferred on a Collector making a settlement by Bengal Regulations VII of 1822 and IX of 1833.

The rules provide also for the publication of the record of the rights of persons having any interest in the land, and for the presentation of petitions to the Officer by whom the record has been framed, and of appeals to the Commissioner against the orders of the said Officer, by persons dissatisfied with the entries in the record.
